

**Mack® Trucks are Known for Quality & Reliability.  
That's Why Bendix® High Performance Brakes are Standard.**

Bendix® High Performance ES™ (Extended Service) drum brakes will not only keep you in compliance with the Reduced Stopping Distance (RSD) Mandate, they'll provide you with improved lining life over the previous standard.

Engineered to provide superior durability and extended service life, ES brakes can help lower your cost per mile and minimize vehicle downtime.

Drum Brake**

# Bendix® High Performance ES™ (Extended Service) Brakes... lower cost per mile and less vehicle downtime.

- 9% more wearable lining in the same envelope due to single anchor pin design
- E-Coat<sup>2</sup> virtually eliminates rust jacking
- Heat treated camshafts deliver superior durability
- Bronze camshaft bushings extend service life

## Bendix High Performance Friction Resists Fade for Maximum Braking Power

Unlike competitor products, as our friction heats up during the stop, it resists fade to enable shorter stops.

**9%**  
more wearable lining

Bendix brakes have 9% more wearable lining volume than a leading competitor's brakes.

Virtually eliminates rust jacking

E-Coat<sup>2</sup> Shoe
